

## IMAGINED BY AVENUE INTERIOR DESIGN, DEVELOPED BY MITYLITE

“ While ordering from a catalog is often the easiest, from a design perspective having the flexibility to design what you want is always the best. ”

“ The process was very easy and seamless... ”

—Ashley Manhan, Co-founder,  
Avenue Interior Design

### FEATURED PRODUCTS:

- Royale Series Banquet Chairs
- Reveal Duo Linen-less Tables
- Madera Laminated Tables

### OVERVIEW

The SLS Hotel & Casino® represents the culmination of a three-year, \$415 million renovation on the site of the legendary Sahara Hotel & Casino, located at the North-end of the Las Vegas Strip. An SBE Entertainment property, the SLS Hotel presents a modern aesthetic through an appealing combination of style, luxury, service, and creativity.

### CHALLENGE

When every detail thoughtfully reflects SLS' signature luxurious and iconic style, extending this vision and direction across 30,000 feet of dedicated meeting and event space is a major design undertaking.

On behalf of SLS Hotel, Avenue Interior Design worked to create visually stunning meeting venues and sophisticated settings for signature SLS events. An overriding desire for their design was a banquet chair that didn't look like a banquet chair, and one that wasn't heavy or cumbersome.

### SOLUTION

Through trusted partnerships and prior relationships, MityLite was invited to present its banquet seating lines for purchase consideration. What happened next wholly contributed to a curated décor decision; the ideal chair was discussed with the design team, drawn on a slip of paper, refined by MityLite, and a sample presented. MityLite's Royale Series was born and now adds to SLS' contemporary palette. With plush seating comfort to match its fresh style, the chair's streamlined aluminum frame met the design team's lightweight specifications.

Further enhancing the stylish and sophisticated meeting and event setting, MityLite also provided glammed versions of its Reveal Duo Linen-less and Madera Laminated tables, both delivered with Carrara marble tabletop finishes and textured silver leg frames.
