WARRANTY

MityLite warrants its Lisbon chair frame to be free from defects in materials and workmanship under normal use, service, and handling for a period of five [5] years. MityLite warrants upholstery and frame finish for a period of one [1] year from the date of purchase.

FRAME

Chair legs, crossbars and back frame are made from 18-gauge steel. Frame is welded for maximum strength and clean joints.

SEAT

Chair seat is made of .6 inch (16mm) shaped birch plywood with a circular indentation for comfort or 2-inch upholstered seat cushion. See below.

BACKREST

The chair backrest is made of .6 inch (16mm) plywood or 18-gauge steel. Two standard backs options are available.

GLIDES

Glides are made of white nylon and help prevent streaking or scratching floor surfaces.

FRAME FINISH

The steel frame is powder coated for enhanced durability and scratch resistance properties. Wood stains and durable topcoats are applied to seat and backrest when applicable.

SEAT CUSHION

Standard seat is 2" (51mm) thick foam over a plywood seat base. Upholstered with .5 yards of easy-to-clean vinyl fabric. COM and other fabric options also available.

PITCH

Lisbon Series chairs have a dining pitch; perfect for facilities looking to use this chair in a restaurant setting.

CROSSBARS

Chairs are reinforced with crossbars for additional strength and stability. Constructed of 18-gauge steel and welded to legs to prevent chair sway.
