### FRAME

Chair legs, seat & back frame made from solid European Beech wood. Mortise & Tenon joint construction with tongue & groove corner blocks on each leg glued and screwed with hardened steel lag screws.

### SEAT

Chair seat is made of solid .9 inch (25mm) Beech with a circular indentation for enhanced comfort. Madrid Series chairs also have an optional upholstered seat cushion in lieu of a wooden seat. See below.

### BACKREST

The chair backrest is made of .6 thick (16mm) solid Beech. Several back options and styles are available.

### GLIDES

Polypropylene glides are nailed into the bottom of each leg and help prevent streaking or scratching floor surfaces.

### FRAME FINISH

The wood frame finish follows an extensive multi-step stain and lacquer process to ensure consistent color, sheen, and texture for a premium long-lasting and easily maintainable finish.

### SEAT CUSHION

The cushioned version of the Madrid Series chair possesses a 2" (51mm) thick foam over a plywood seat base. Upholstered with .45 yards of easy-to-clean vinyl fabric. COM and other fabric options also available.

### PITCH

Madrid Series chairs have a dining pitch. Perfect for facilities looking to use this chair in a restaurant or dining setting.

### CROSSBARS

Chairs are reinforced with Beech crossbars for additional strength and stability. Crossbars also utilize Mortise & Tenon joints and are attached using discrete screws and glue.
