WARRANTY

MityLite warrants its Milan chair frame to be free from defects in materials and workmanship under normal use, service, and handling for a period of three [3] years. MityLite warrants upholstery and frame finish for a period of one [1] year from the date of purchase.

FRAME

Chair legs, seat & back frame made from solid European Beech wood. Mortise & Tenon joint construction with tongue & groove corner blocks on each leg glued and screwed with hardened steel lag screws.

SEAT

Two seat options are available for the Milan Series chair. Seat base is manufactured from .5 inch (12mm) plywood. Seat is cushioned, fully upholstered and wrapped to give the chair two unique looks.

SEAT CUSHION

The standard seat cushion for the Milan Series chair is 2" (51mm) thick foam, however; several upholstered seat options give it the appearance of a thicker cushion. A variety of easy to clean vinyl fabric options are available.

BACKREST

The chair backrest is upholstered in a variety of styles and utilizes .4" thick (10mm) foam padding on front of backrest.

FRAME FINISH

The wood frame finish follows an extensive multi-step stain and lacquer process to ensure consistent color, sheen, and texture for a premium long-lasting and easily maintainable finish.

PITCH

Milan Series chairs have a dining pitch. Perfect for facilities looking to use this chair in a restaurant or dining setting.

GLIDES

Polypropylene glides are nailed into the bottom of each leg and help prevent streaking or scratching on most floor surfaces.
