WOOD DINING CHAIR

**SOFIA**

The Sofia is perfect for customers who are looking for elegance and customization in a classic wooden restaurant chair. By blending the essentials of traditional restaurant seating with the comfort and design of an upholstered seat and backrest, the Sofia creates a style of its own.

### WARRANTY

MityLite warrants its Sofia chair frame to be free from defects in materials and workmanship under normal use, service, and handling for a period of three [3] years. MityLite warrants upholstery and frame finish for a period of one [1] year from the date of purchase.

### FRAME

Chair legs, seat & back frame made from solid European Beech wood. Mortise & Tenon joint construction with tongue & groove corner blocks on each leg glued and screwed with hardened steel lag screws.

### SEAT

Sofia's chair seat comes standard with an upholstered seat cushion, however it possesses the option for a .9 inch (25mm) solid Beech wood seat with circular indentation if desired.

### BACKREST

The chair backrest is made of .6 thick (16mm) Beech wood and upholstered with a .4" thick (10mm) cushion.

### GLIDES

Polypropylene glides are nailed into the bottom of each leg and help prevent streaking or scratching on most floor surfaces.

### FRAME FINISH

The wood frame finish follows an extensive multi-step stain and lacquer process to ensure consistent color, sheen, and texture for a premium long-lasting and easily maintainable finish.

### PITCH

Sofia chairs have a dining pitch. Perfect for facilities looking to use this chair in a restaurant or dining setting.

### UPHOLSTERY

The cushioned version of the Sofia chair possesses a 2" (51mm) thick foam over a plywood seat base. Upholstered with .45 yards of easy-to-clean vinyl fabric. COM and other fabric options also available.

### CROSSBARS

Chairs are reinforced with Beech crossbars for additional strength and stability. Crossbars also utilize Mortise & Tenon joints and are attached using discrete screws and glue.
