CUSTOM STAIN MATCHING ALSO AVAILABLE

SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	STANDARD GLIDE
Fixed	Yes	European Beech Hardwood	Grades 1-4+ TB133, COM	Nylon

Bariatric Arm Chair Also Available

BACK

High density foam.

FRAME

100% solid European beech is a strong, bendable, and renewable hardwood. This attractive, light-colored wood accepts stain well.

FRAME CONSTRUCTION

Joints: Mortise and tenon and glued with high solids water-based glue. All joints are reinforced with 18-gauge nails. Screws and corner blocks provide stability and strengthen the main joints.

FRAME FINISH

The stain is hand wiped into the grain to ensure even color and maximum penetration into the wood. Two coats of catalyzed finish are sprayed over the stain with a sanding between. This catalyzed finish is very durable and resists cracking and chipping.

SEAT

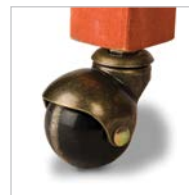

Elastic webbed seat plate.

GLIDES

7/8" Nylon glide. Other available options are small metal, standard metal, metal with nylon cap, and felt.

C.O.M. UPHOLSTERY

Fabric amount is estimated using 54" (137cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request with model, quantity and fabric details. Customer is responsible for any additional customs/duties fees for fabrics shipping across the border.

CASTER

The caster has a full 360° rotation, with a 2" spherical wheel that is complete with an antique brass hood. This hood is designed to not only be beautiful but to act as a guard as well. We recommend that the casters are fixed to front legs only to provide stability for your clients. These casters are professionally installed to ensure there is zero compromise to the integrity of our chairs. Available on armchair only.
