# BULLDOG BENCH

SOLID WOOD SEATING

### FRAME

100% solid European beech is a strong, bendable, and renewable hardwood. This attractive, light-colored wood accepts stain well.

### FRAME CONSTRUCTION

Joints: Mortise and tenon and glued with high solids water-based glue. All joints are reinforced with 18-gauge nails. Screws and corner blocks provide stability and strengthen the main joints.

### BACK

The curve and pitch in the back provide comfort and a modern look.

### FRAME FINISH

The stain is hand wiped into the grain to ensure even color and maximum penetration into the wood. Two coats of catalyzed finish are sprayed over the stain with a sanding between. This catalyzed finish is very durable and resists cracking and chipping.

### SEAT

Available in upholstered or solid wood.

### GLIDES

7/8" Nylon glide. Other available options are small metal, standard metal, metal with nylon cap, and felt.

### C.O.M. UPHOLSTERY

Fabric amount is estimated using 54" (137cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request with model, quantity and fabric details. Customer is responsible for any additional customs/duties fees for fabrics shipping across borders.
