SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	FABRIC YARDAGE	STANDARD GLIDE
Fixed	n/a	European Beech Hardwood	n/a	n/a	Nylon

FRAME

100% solid European beech is a strong, bendable, and renewable hardwood. This attractive, light-colored wood accepts stain well.

FRAME CONSTRUCTION

The chair is reinforced with metal to metal hardware coated in Loctite and reinforced with high solids glue.

BACK

The curve and pitch in the back provide comfort and a modern look.

FRAME FINISH

The stain is hand wiped into the grain to ensure even color and maximum penetration into the wood. Two coats of catalyzed finish are sprayed over the stain with a sanding between. This catalyzed finish is very durable and resists cracking and chipping.

SEAT

Available in upholstered or solid wood. The wood seats are sculpted at the factory to ensure a comfortable sitting position. Standard barstool seat height is 30". Seat heights available ranging from 24" (61 cm) to 30" (76 cm).

GLIDES

7/8" Nylon glide. Other available options are small metal, standard metal, metal with nylon cap, and felt.

CUSTOM ETCHING

Custom etching allows you to take one of our chairs and make it yours. Add elegance with your company or establishment name/logo, or practicality with numbering/sequencing. Contact your closest dealer to arrange and create a custom design to suit any occasion.

INTERLOCKING GANGING

This feature is meant to interlock our chairs to create a smooth, continuous look. This allows you to secure multiple chairs together in rows for a straight line every time.

C.O.M. UPHOLSTERY

Fabric amount is estimated using 54" (137cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request with model, quantity and fabric details. Customer is responsible for any additional customs/duties fees for fabrics shipping across the border.
