FRAME

100% solid European beech is a strong, bendable, and renewable hardwood. This attractive, light-colored wood accepts stain well.

FRAME CONSTRUCTION

Joints: Mortise and tenon and glued with high solids water-based glue. All joints are reinforced with 18-gauge nails, corner blocks and low root woodscrews.

BACK

The curved plywood back provides comfort and a modern look. Hand cut out aids in no-fuss transportation.

FRAME FINISH

The stain is hand wiped into the grain to ensure even color and maximum penetration into the wood. Two coats of catalyzed finish are sprayed over the stain with a sanding between. This catalyzed finish is very durable and resists cracking and chipping.

SEAT

Available in upholstered cushion. All seats are custom-built at the factory to ensure a comfortable sitting position. Standard barstool seat height is 30", other heights available ranging from 24" (61 cm) upon request.

GLIDES

7/8" Nylon glide. Other available options are small metal, standard metal, metal with nylon cap, and felt.

BARSTOOL KICKPLATE

Standard barstool kick plates are brass. Chrome or black kick plates are available upon request for no additional cost. These kick plates offer style while providing protection and durability.

CUSTOM ETCHING

Add elegance with your company or establishment name/logo, or practicality with numbering/sequencing. Contact your closest dealer to arrange and create a custom design to suit any occasion.

C.O.M. UPHOLSTERY

Fabric amount is estimated using 54" (137cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request with model, quantity and fabric details. Customer is responsible for any additional customs/duties fees for fabrics shipping across the border.
