TUDOR ARM CHAIR

SOLID WOOD SEATING

BACK

The Tudor Arm Chair features a stunning upholstered X back that is not only comfortable, but elegant.

FRAME

100% solid European beech is a strong, bendable, and renewable hardwood. This attractive, light-colored wood accepts stain well.

FRAME CONSTRUCTION

Joints: Mortise and tenon, glued with high solids glue and reinforced with 18 gauge nails, corner blocks and low root woodscrews. Angle brackets are added for strength and stability.

FRAME FINISH

The stain is hand wiped into the grain to ensure even color and maximum penetration into the wood. Two coats of catalyzed finish are sprayed over the stain with a sanding between. This catalyzed finish is very durable and resists cracking and chipping.

SEAT

The underside of the seat is supported by a mesh webbing and is fully upholstered for luxurious comfort. Customize with fabric to match your space.

GLIDES

7/8" Nylon glide. Other available options are small metal, standard metal, metal with nylon cap, and felt.

C.O.M. UPHOLSTERY

Fabric amount is estimated using 54" (137cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request with model, quantity and fabric details. Customer is responsible for any additional customs/duties fees for fabrics shipping across the border.
