

XpressPort[®]

FOR LINENLESS & STANDARD TABLES
SPACE SAVER CARTS

Space-Saver table carts are designed to store 30-inch wide, lightweight, folding tables in a vertical position. Storing tables vertically results in a smaller footprint. The cart is designed to clear all doorways when loaded with 6-foot long tables with one-person loading. The lower support rail and side rail features vinyl profile extrusions to protect the table edges and frames.

PRODUCT FEATURES

- 1 UPPER AND LOWER BACKREST BEAMS**
These beams serve to secure tables against movement. They are covered with resilient rubber to protect the table edges and finish. Rubber profile extrusions have been applied to the bottom and edges of the support beams for extra protection and support.
- 2 LOWER SUPPORT BEAMS**
The lower support beams are positioned close to the floor to enable loaded carts to pass through standard doorways and for tables to be loaded and unloaded easily.
- 3 ERGONOMIC HANDLE GRIPS**
These grips provide a comfortable hand hold for pushing and pulling carts.
- 4 FRAME**
The side frames consist of 1.25-in x 1.25-in, 14-gauge steel tubing.
- 5 CASTERS**
Two swivel casters with brakes and two rigid casters, each having 925 lbs of load capacity, are equipped with 8 inch diameter, 2-inch wide, polyurethane wheels with precision

DIMENSIONS (CART ONLY)

OUTSIDE WIDTH	INSIDE WIDTH	LENGTH	HEIGHT	MAX LOADED HEIGHT	SHIPPING WEIGHT
32 in (81.3 cm)	29 in (73.7 cm)	40.5 in (102.9 cm)	48 in (121.9 cm)	76 in (193 cm)	90 lbs (40.8 kg)

Designed for a 72-inch long maximum table length. (Table capacities are approximate and may vary depending upon specific table construction and dimensions.)
