

MITYLITE

The Best Chairs for Their Space

How MityLite products helped upgrade rental options for Bartlett Park District Customers

Overview

The Bartlett Park District was formed in January of 1964 when the Village of Bartlett donated the first 13-acre parcel to the Park District, part of Sunrise Park. The District now owns 577 acres and leases another 20 acres for the recreational needs of the community. Bartlett is among the most distinguished organizations in Illinois, with 43 parks, a community center, two pools, two golf courses, a banquet facility, ski hill, athletic field complex, nature center, and more.

The Challenge

Nicholas Serritella, Scheduling Manager for the Bartlett Park District and Bartlett Community Center, was looking for new chairs to replace the current inventory in rental spaces. Among the most popular rental spaces is a stand-alone log cabin where renters can organize the space to fit their needs.

Nicholas was searching for stacking chairs and folding chairs that would be easy to move and store. Although they have a huge facility, storage space is limited due to the accumulation of products over the 20 years the community center has been operating.

Nicholas also needed durable carts to help make room turnover easier for his staff and the people renting the facilities.

The Solution

Nicholas had worked with MityLite in the past to purchase ABS Folding Tables for the banquet room and program rooms. He was happy with the products and the service he received, so he contacted his sales representative to talk about folding and stacking chairs.

He chose to purchase MeshOne® Stacking Chairs and MeshOne® folding chairs for his facilities as well as carts for the chairs. Nicholas says the stacking chairs have been a great fit for the cabin. They stack easily, fit perfectly against the wall, and provide a nice aesthetic look. He has been happy with the carts as well.

How MityLite Made it Easy

Nicholas says his sales representative is always responsive in answering his questions and helping with anything he needs. The rep walked him through the chair options and helped him narrow it down to exactly what he needed while also getting him a good price. Nicholas also knows that he can call his rep any time to get replacement items, which will be shipped out quickly.

“The chairs are a big upgrade from what we had before. People love the look and we get so many compliments comfort-wise and aesthetic-wise.”

“It’s been great working with MityLite, and I wouldn’t want to work with anybody else. MityLite is always the first place I look when I do have to purchase furniture. Always.”
