DURAMAX[™] PRO

FOLDING CHAIR

MITYLITE

DURAMAX™ PRO
FOLDING CHAIR

MityLite's **DuraMax™ Pro** presents the classic "wedding chair" look— without the maintenance hassles of wooden folding chairs. Durable construction ensures safe and stable use for many years while its stain-resistant resin minimizes cleaning.

PRODUCT FEATURES

- 1** Supports more than 1,000 lbs (454 kg)
- 2** UV-treated resin eliminates fading and discoloration
- 3** Padded vinyl seat
- 4** Matches existing wood chairs
- 5** Stain- and scratch-resistant resin wipes clean
- 6** Safe locking device

SEAT AND BACKREST OPTIONS

Duramax™ Pro Stacks up to 30 Chairs High

3 YEAR LIMITED WARRANTY

FRAME

The frame is made from polypropylene resin with UV stabilizer. Cross supports consist of identical material.

LEGS & BACKREST

The legs and backrest are made from polypropylene resin with UV stabilizer. Cross supports consist of identical material and match existing wooden chairs.

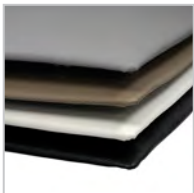

SEAT

The seat base is manufactured from the same polypropylene resin used throughout the chair legs and frame. Vinyl seat is removable and easily snaps in or out for convenient replacement if necessary.

SEAT BASE

The seat base is reinforced with a 3/16-inch (4.8 mm) x 16 5/8-inch (422 mm) zinc-plated steel bar that is attached to the frame and also functions as the seat's pivot point.

UPHOLSTERY

TPVC leather is applied over 0.25-in (6.4 mm) foam padding, then securely attached to the polypropylene base with upholstery staples.

FOLDING

The unique folding mechanism and design folds the chair flat to 2.5 inches (6 cm). Chair folds effortlessly for quick set up.

HARDWARE

The frame and legs are attached to corresponding frame members using zinc-plated steel bolts.

DIMENSIONS

CHAIR WIDTH	SEAT DEPTH	CHAIR HEIGHT	SEAT HEIGHT	STACK HEIGHT
17.8 in (44 cm)	14 in (35.5 cm)	30.5 in (79 cm)	18 in (45 cm)	30 Chairs
