## LINENLESS TABLE

### TABLE TOP

The surface is commercial-grade High-Pressure Decorative Laminate (HPDL) and bonded to 12 mm plywood ultra-core using a high-strength adhesive. The laminate surface is available in a variety of colors and is fastened to an aluminum frame. Reveal tables are intended for indoor use only.

### UNDERSURFACE

An aluminum frame is attached to the bottom of tabletop. The frame corners are powder coated aluminum. The underside of the table has a black laminate finish. Skirting clips can be attached for skirting options.

### DROP PANEL

Reveal Duo's drop panel allows the table to convert from 18-inch to 30-inch wide or 24-inch to 36-inch wide. MityLite's patented Safe-Hinge® design prevents pinching when raising the drop panel is a horizontal position.

### LEGS

Conference legs or offset conference legs are standard on all tables. Legs are extruded and fabricated from aluminum.

### LEG GLIDES

Leg glides are non-marring injection molded polypropylene to prevent streaking or scratches on flooring.

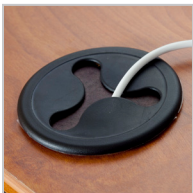

### LEG MECHANISM

Folding mechanism is extruded and fabricated from aluminum. Mechanism is welded to the table's legs and fastened to table runners. Patent-pending Leg Lock mechanism holds the folded leg flat against the table when not in use.

### SLIDE LOCK

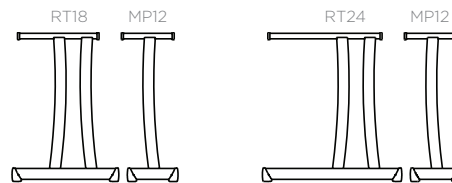

An aluminum slide lock secures table in service position. When lock is disengaged, the 12-inch wide privacy panel can be lowered into place. Slide lock parts are extruded and fabricated aluminum.

### WIRE MANAGEMENT

Wire management option is available in the form of a grommet hole for running wires under the table through table surface.

### LEG OPTIONS

## SPECIFICATIONS

WIDTH	LENGTH	HEIGHT	WEIGHT
18 in - 30 in (48 - 76 cm)	60 in (153 cm)	29 in (73 cm)	54.8 lbs (24.9 kg)

#### SUSTAINABILITY

Reveal Tables are GREENGUARD® Certified and qualify for credits through LEED® and other sustainable building programs. The Wilsonart® Laminate contains a minimum of 20% post-consumer re-cycled content (SCS-MC-002028). Wilsonart Laminate backers contain a minimum of 30% recycled content (SCS-MC-002027). Wilsonart is the first North American laminate manufacturer to receive Forest Stewardship Council™ Certification Registration. (SCSCOC-002415) Wilsonart HD® High Definition® Laminate, as well as most Wilsonart Premium Laminates carrying AEON™ Enhanced Performance and premium finishes are FSC-certified. The plywood sustainability is Carb Phase 2 compliant and contains low formaldehyde. All extruded aluminum parts are made from 50% to 80% post-consumer and post-industrial recycled aluminum.
