

# Benefits to Look for in Portable Dance Flooring

## Magnattach® Portable Dance Floor

### Total Cost

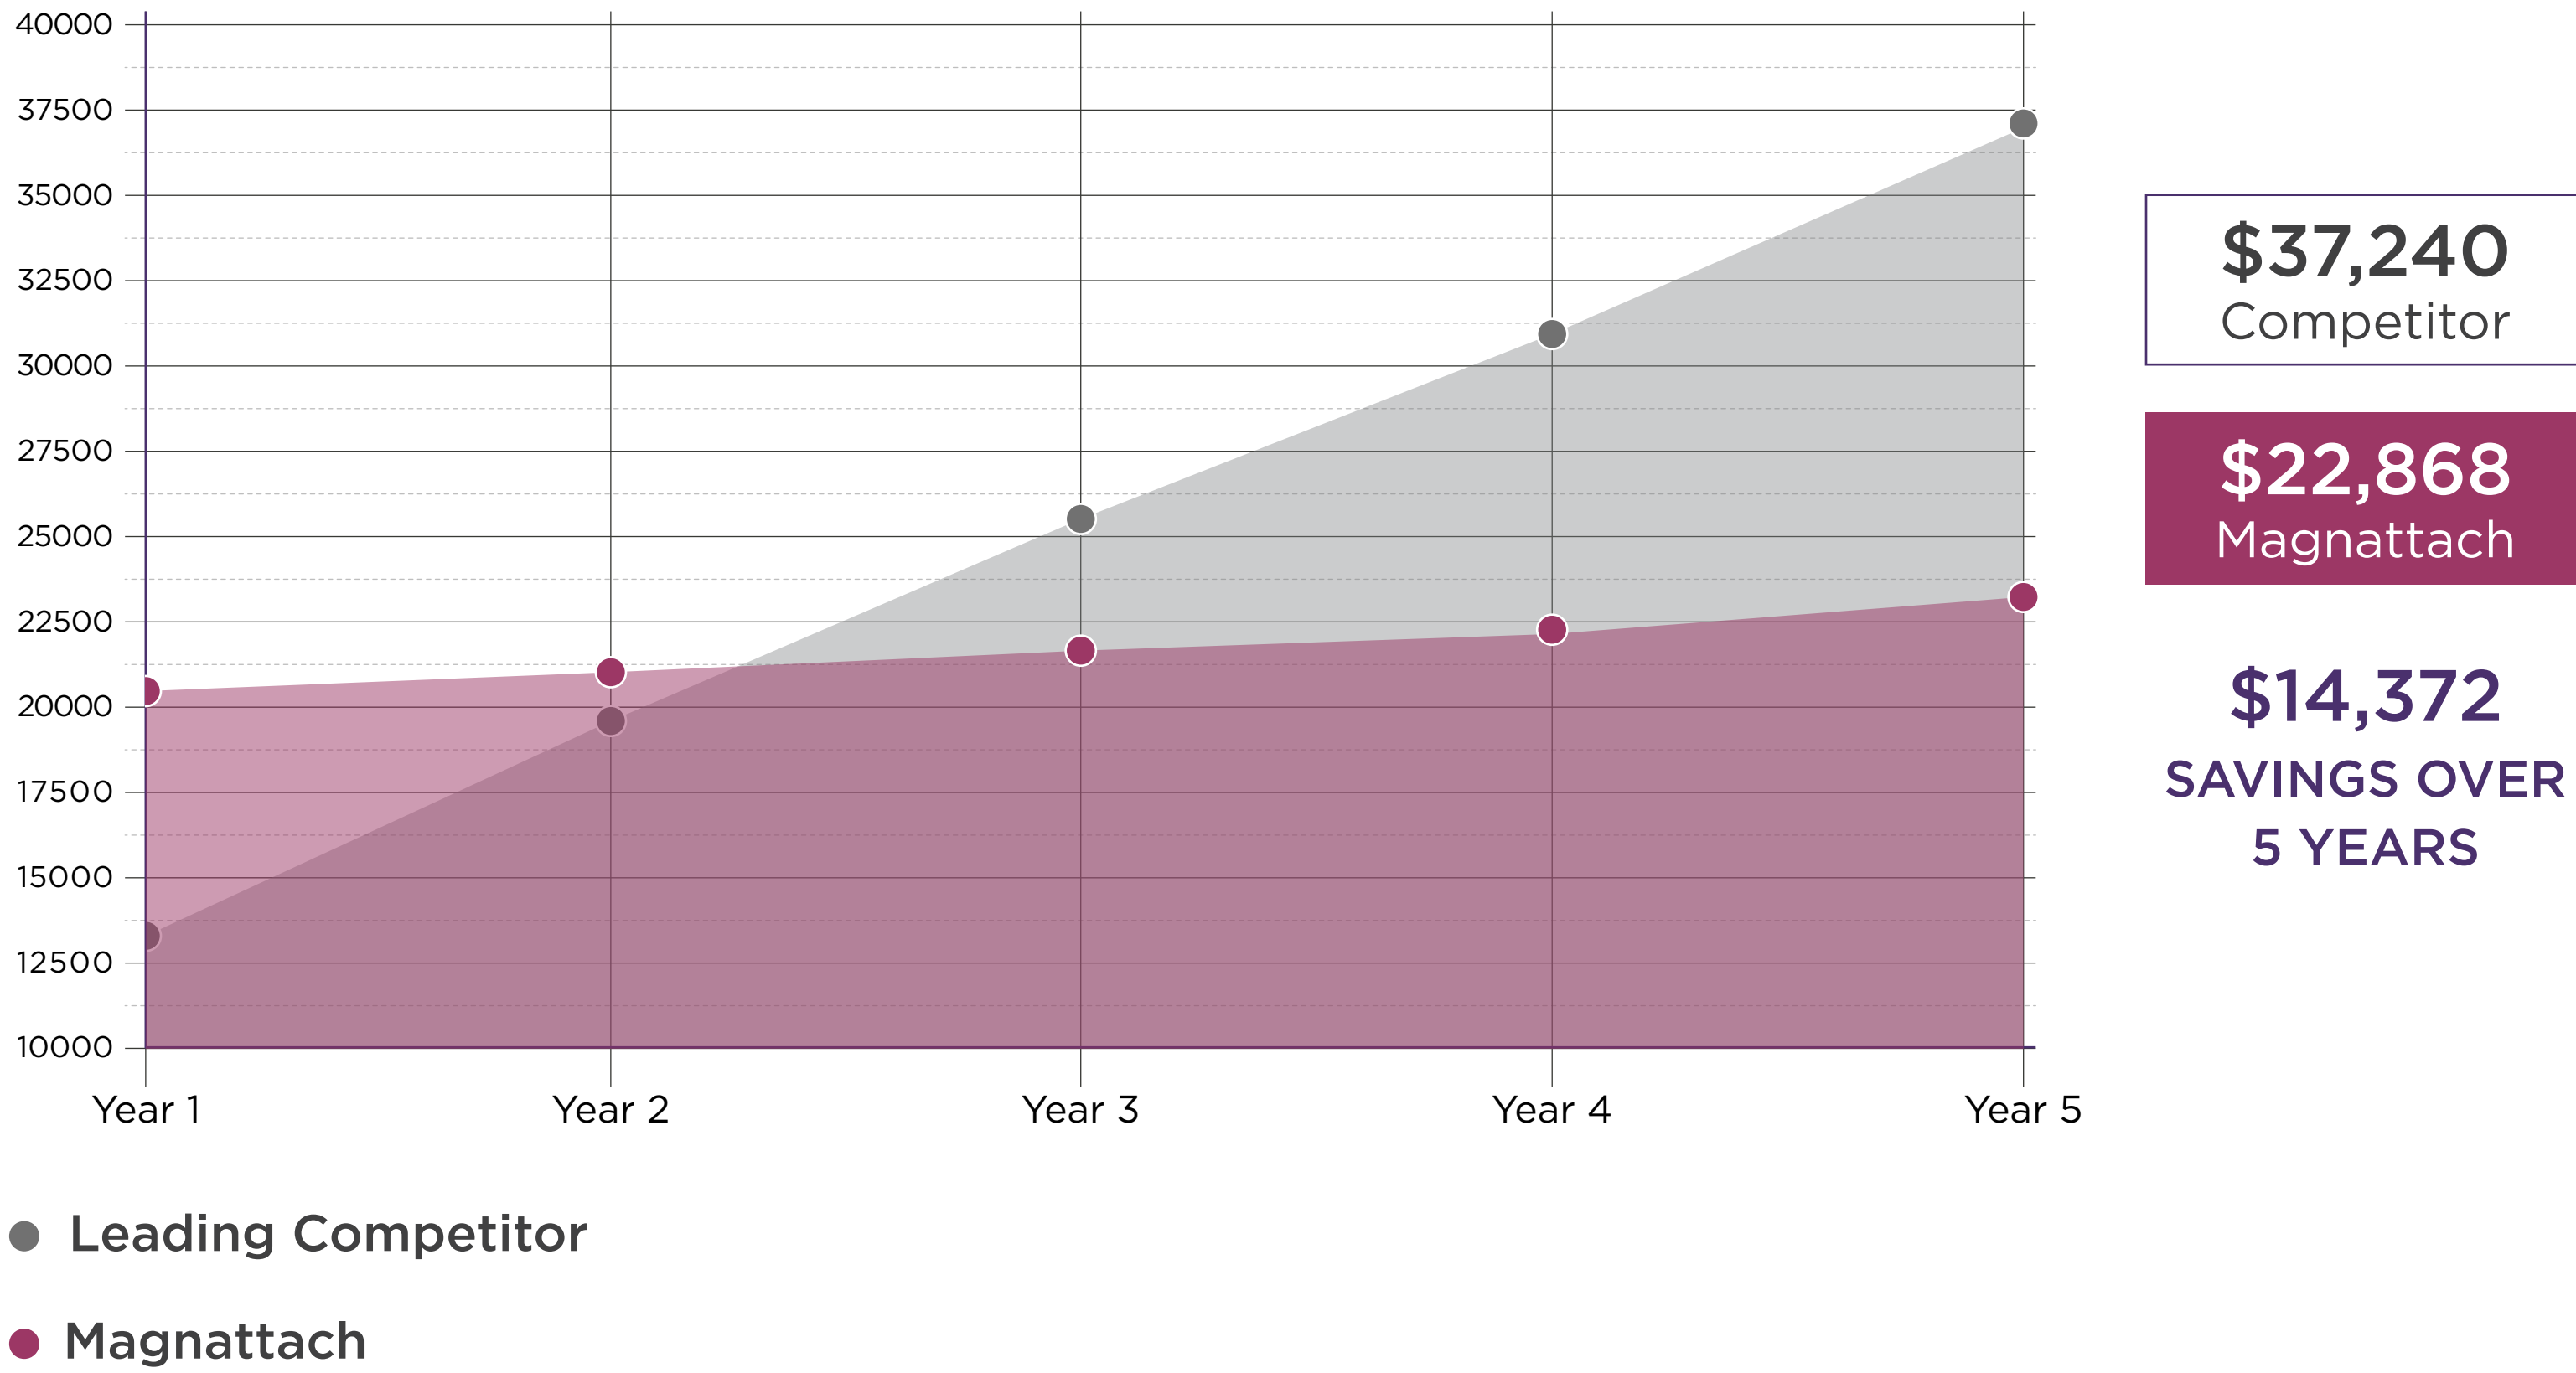

During the 1st 5 years after purchase, Magnattach will save you time and money—up to 90% in labor costs!

## How to determine total cost in the first 3-5 years after purchase

Running Total	Year 0	Year 1	Year 2	Year 3	Year 4	Year 5
Magnattach*	\$20,493	\$20,954	\$21,422	\$21,897	\$22,379	\$22,868
Leading Competitor	\$7,568	\$13,328	\$19,174	\$25,107	\$31,129	\$37,240

### Cost of Ownership Over 5 Years.

\* Calculations are based on hosting 4 events per month with a 20x20 floor and a \$20-hourly labor rate. Estimated cost savings with Magnattach versus a screw-type floor.

#### Assembly & Disassembly

Less than 7 minutes

#### Labor

Up to

**90%**

in savings

#### Maintenance & Replacement

**\$0**

Quality = cost savings

## Customer Benefits

## Tested Durability

A **Ball Drop Test** showed the surface can withstand high impact such as dropping the panels or dropping a chair on the floor.

A **Puncture Test** demonstrated the floor can withstand 500-lbs of pressure from a stiletto heel.

A **Scratch Abrasion Test** showed the surface will not scratch when dragged over rough carpet or concrete flooring.

A **Bond Test** demonstrated the strength of the bond between the panel and frame.

The **Load Cycling Test** showed the floor can withstand high impact in the same location of up to 500 lbs of weight without sustaining damage.

In an **Environmental Chamber**, the floor was shown to withstand extensive humidity (up to 90%) and extreme temperatures (from -20 to 120°) without cracking or warping.
