

# MITYLITE®

## Barra dobrável Imara

## ESPECIFICAÇÕES

Altura: 44,50" (113,03 cm)

Largura: 38,89" (98,78 cm)

Comprimento: 75,46" (191,67 cm)

Peso: 205 libras (92,99 kg)

Profundidade do tampo da barra: 38,89" (98,78 cm)

Material do tampo do bar: Laminado compacto de 1/8" (0,32 cm)

Largura de retorno do topo da barra: 7,87" (19,99 cm)

Espessura do tampo da barra: .92

Profundidade de trabalho do balcão: 15,75" (40,01 cm)

Rodízios: 4" (6 com trava)

Material da fachada: Laminado compacto de 1/4" (0,64 cm)

Profundidade do poço de gelo: 7,70" (19,56 cm)

Comprimento do poço de gelo: 19,80" (50,29 cm)

Largura do poço de gelo: 11,84" (30,07 cm)

Profundidade da área de trabalho do operador: 24,38" (61,93 cm)

Comprimento da área de trabalho do operador: 66,75" (169,55 cm)

Formato do produto: Retângulo

Tipo de produto: Bar portátil

Profundidade do trilho de velocidade: 3,90" (9,91 cm)

Comprimento da ferrovia de alta velocidade: 3,97" (10,08 cm)

Largura do trilho de alta velocidade: 17,88" (45,42 cm)

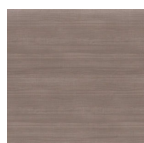

Acessórios padrão: 2 recipientes de gelo de plástico removíveis, 2 trilhos deslizantes removíveis, tampa

Garantia: 1 ano

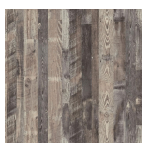

## OPÇÕES

### OPÇÕES DE TAMPO DE BAR

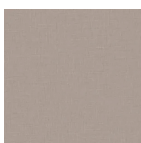

#### Laminado compacto

## COMPLEMENTOS

### Calota de roda

Uma cobertura metálica encaixa-se na parte inferior da estrutura para ocultar as rodinhas.

### Luzes LED

Melhore o ambiente com uma fita de LED magnética.

Painéis de fachada adicionais (conjunto de 4)

Prepare-se para qualquer estilo de evento com um segundo conjunto de painéis fabricados em um laminado diferente.
